

# Louis Coutel

## Front-End Developer

I have spent over **500 hours** honing my skills in development and **Responsive Design** through self-learning. I have recently enrolled in the **Web Integrator** training program offered by **OpenClassrooms**, and I am eager to put my skills to use as a **Front-End Developer** apprentice. Before that, I occupied the position of **Podcast Audio Creator/Engineer** at **L'Express** magazine.

## Education

2023 (ongoing)

### Web Integrator (Bac +2 Lvl. 5) - OpenClassrooms

18 months apprenticeship, **RNCP** registered certification. Application development, project management, agile methodology, SEO, API modeling, HTML/CSS/JS/Sass/React/Redux.

**Projects :** mobile-first website, planning of a client project, single-page application, front-end of a banking application.

2022 - 2023

### Responsive Web-Design Certification - freeCodeCamp

**HTML et CSS :** flexbox/grid, pseudo-elements, media queries, animations, forms, design and accessibility best practices.

**Projects :** tribute page, landing page, portfolio.

### Foundations Course - The Odin Project

**Javascript :** interactive features, animations, DOM manipulation, objects & arrays, async functions, version control, algorithms, troubleshooting, debugging.

**Projects :** Rock Paper Scissors game, Paint web-app, calculator.

2018

### Diplôme d'Etudes Supérieures des Techniques du Son (Bac +3 Lvl. 2) - I.S.T.S Paris

## Work experience

June 2021 - Jan 2022

### Podcast Audio Creator (CDD) - L'Express

Recording and production of "**La Loupe**", le podcast quotidien de **L'Express**, sound design, promo spots.

2018 - June 2021

### Audio Engineer (Internship > CDD) - Altice Media/L'Express

For **L'Express Audio**, recording of over 60 pages of articles weekly, voice-over artists directing, editing & mixing, technical lead. Podcast editing and mixing in a newsroom environment (**L'Édito de Christophe Barbier/Voix Express**), setting-up sessions and recording guests.

## Skills

Designing and developing responsive web pages

Integrating assets and contributing to the development of design systems

Developing interactive features and enhance user experience

Strong focus on code quality, testing, and version control

## Tools & Software

Bash - HTML/CSS/JS - VSCode

Figma - BEM - Git - ESLint - Jest

## Languages

Fluent in English (C2)

83/100 on the EF-SET test

## Soft-skills

**Curiosity :** During my career transition, I leveraged my curiosity to teach myself a completely new set of skills.

**Adaptability :** through two lockdowns, a company restructuring and a relocation, I adapted our processes and kept the production chain running at no additional cost for the company.

**Interpersonal Skills :** In a challenging newsroom environment, I welcomed and recorded guests such as Aurélien Barreau, Daniel Cohen, Emmanuel Faber, Geoffroy Roux de Bézieux, Justin Trudeau...
